The Finnish Rex Cat Association

The Finnish Rex Cat Association (SUREX in short) was founded in 1990 in Finland for all those interested in the Rex breeds. Its intention is to act as an intermediary between people who have, show and/or breed Cornish Rex, Devon Rex or Sphynx cats and the public through raising awareness and esteem of these breeds and giving information in both nurturing and breeding of them.

Cornish Rex, Devon Rex and Sphynx Special

SUREX wishes to put one breed to one judge only or if there will be more than 40 cats of the breed, two different judges.

For the Rex and Sphynx special panel, each judge can nominate one adult, one neuter and one kitten (3-10 months). From those, the judges will vote the best SUREX cats.
